

ACCELERATE

 **DO MORE**
TOGETHER

MISSION

The Accelerate Networking Program provides networking opportunities aimed in career progression and exposure.

VISION

We believe that there is tremendous networking power that exists amongst our unique graduate base. In order to strengthen and leverage these connections, Do More Together facilitates and hosts in-person and online networking events designed to improve access to professional and educational opportunities. dmT also encourages graduates to join their local alumni societies, connect with other grads through local and regional social events, and to engage with class and Academy activities on an annual basis.

Our Networking (Accelerate) Vs Mentorship (Grip Hands): Accelerate is about making chess moves—Grip Hands will teach you chess strategy
